

Clark County School District Mabel Hoggard Magnet ES

School Performance Plan: A Roadmap to Success

Mabel Hoggard Magnet ES has established its School Performance Plan for the school year. This plan was developed by the school's continuous improvement (CI) team and informed by a comprehensive needs assessment that included data analysis and meaningful engagement with the school community. It includes the school's goals and process developed during Act 1. The CI team will monitor implementation throughout the school year and evaluate and update the goals at the end of the year.

Our SPP was last updated on 6/23/2023

School Demographics and Performance Information

In compliance with federal and state law, Nevada's K-12 Accountability Portal provides detailed information about each school's student and staff demographics and school performance rating, a star rating system based on the Nevada School Performance Framework (NSPF). You can find our School Rating report at

http://nevadareportcard.nv.gov/DI/nv/clark/mabel hoggard mathematics and science magnet elementary school/2022/nspf/.

School Continuous Improvement (CI) Team

The Continuous Improvement Team is made up of a diverse group of school administrators, teachers, staff, caretakers, and students. This team

meets regularly to develop, monitor, and continually respond to the school's teaching and learning needs.

Name	Role
Stacey Scott-Cherry	Principal(s) (required)
Debra Huckins	Other School Leader(s)/Administrator(s) (required)
Patrick Gutowski Tracy Czech Christopher Ho Melanie Kriz Candace Kruse-Makowski Jennifer Maher Michelle Taylor Jill Sullivan Brittany Granil Genevieve Bray	Teacher(s) (required)
Kari Burns	Paraprofessional(s) (required)
Karen Cranston Kenia Tiznado Jamie Schwantes	Parent(s) (required)
	Student(s) (required for secondary schools)

	Tribes/Tribal Orgs (if present in community)	
	Specialized Instructional Support Personnel (if appropriate)	
*Add rows as needed		

School Community Outreach

This section highlights our school's deliberate and strategic efforts to engage the broader school community in our continuous improvement efforts by keeping them informed on our progress and learning and eliciting their feedback and perspective.

Outreach Activity	Date	Lessons Learned from the School Community
SOT Meetings	August 31, 2023 September 14, 2023 October 19, 2023	We discussed student data on SBAC, MAPS, and the NSPF to determine our strengths and areas of need. On the SBAC, we made gains in math (+7%), reading (+8%) and science (+9%) from the previous year. We also made a 9 point gain on our index scores on the NSPF, however our school only maintained our 3 star status rating. Our index score increased from 56.5 in 21/22 to 65.5 in 22/23. A close review of our index scores reveal that we missed earning a 4 star status by 1.5 points on the index. We noticed our scores decreased in the area of Opportunity Gaps in both ELA (-1) and Math (-6). Our score decreased by a half of a point in chronic absenteeism. However, our school demonstrated increases in 5 areas on the index. We discussed our SPP goals and what needed to be continued, and what needed to be changed. We want to maintain our goal of an increase of 5% on the SBAC scores in all areas, as well as maintaining our goal of professional development on our curricular tools. We also want to maintain our 3rd goal of providing social emotional support to students. During these meetings we discussed the tool of Exact Path, which is a tool that would provide every student with a unique and differentiated learning path based on their baseline assessment data. This tool is directly aligned with our goal of increasing our statewide assessment scores by a minimum of 5% in the areas of Reading, Math and Science. We also discussed the tool of Edulastic that would be used next year. This tool will provide teachers with an assessment bank of standards based questions that teachers could use to build common assessments, as well as for reassessment purposes. We discussed the new Reading Curriculum of HMA that will be centrally purchased for all schools next year as well.

Staff Development Days	September 11, 2023 October 9, 2023	We discussed our goals and what needed to be continued, and what needed to be changed. We want to maintain our goal of an increase of 5% on the SBAC scores in all areas, as well as maintaining our goal of professional development on our curricular tools. We changed our third goal from a writing goal to a social emotional goal. This change was based on our observations of our student needs.
Learning Improvement Team Meetings	May 5, 2023 September 1, 2023 October 6, 2023	We held monthly Learning Improvement Team meetings with teachers. Discussions around testing, data, curriculum, and assessments are a standing agenda item during every LIT meeting held during this school year. We will share timely information regarding district wide changes to curriculum and assessment tools that we would be implementing with students for the upcoming year. During these meetings we discussed the tool of Exact Path, which is a tool that would provide every student with a unique and differentiated learning path based on their baseline assessment data. This tool is directly aligned with our goal of increasing our statewide assessment scores by a minimum of 5% in the areas of Reading, Math and Science. We also discussed the tool of Edulastic that would be used next year. This tool will provide teachers with an assessment bank of standards based questions that teachers could use to build common assessments, as well as for reassessment purposes. We discussed the new Reading Curriculum of HMA that was centrally purchased for all schools to use this year. We discussed future professional development opportunities for Kagan engagement structures as well as the other tools that would be available for the upcoming school year. At the beginning of this school year, we discussed our goals and what needed to be continued, and what needed to be changed. We want to maintain our goal of an increase of 5% on the SBAC scores in all areas, as well as maintaining our goal of professional development on our curricular tools. We will also continue our third goal of providing opportunities for students to improve their social emotional health.

School Goals

The school goals were developed over a series of five events and included opportunities for teachers, parents, and students to share their experience and ideas for improvement. The tables on the following pages capture key aspects of the process the CI team engaged in during the creation of this plan.

Inquiry Area 1 - Student SuccessPart A

Student Success					
	Student Performance	Social and Emotional Learning	Access to Rigorous Texts and Tasks		
	School Rating Report, MAP data SBAC Data, ORF and STAR reading data, SBAC Projection Data	Panorama survey results, Student Survey data	Classroom observation data, enVisions 2020, Reach for Reading		
Data Reviewed	Areas of Strength: Our 23/24 Fall MAP data reveals that at the 61st percentile or higher, 45% of our students are proficient in Math, and 48% of our students are proficient in Reading. These numbers are slightly lower than our fall MAP scores from 22/23, which were 48% and 46% respectively. From Fall of 22/23 to Fall of 23/24, an increase in proficiency from all tests taken was noted in our White population (59% - 68%) and in our Hispanic population (40% - 41%).				
	Areas for Growth: Our Fall MAP scores reveal a decline in the performance of our African American students from 22/23 to 23/24 from 42% to 39%, and a decline in our Asian students from 22/23 to 23/24 from 96% to 84%. From Fall of 22/23 to Fall of 23/24, our student performance on MAP decreased at the 61% percentile or above in Reading by 2%, and in Math by 3%.				
Problem Statement	We have communicated consistent expectations for teacher and student performance. We also provided parents with information regarding their student's performance on formative and summative assessments. We can improve on sending parents hard copies of progress reports and information on their academic growth throughout the year. Some of the communication sent to parents regarding their child's academic standing was sent through email. It may have been an incorrect assumption that parents went through Infinite Campus to obtain up to day information on their child's progress in school. As a school, we can be more proactive and aggressive with providing communication to parents regarding their child's academic standing. The use of the Tier I observation tool was not implemented effectively last year to collect and share data				

	with teachers regarding our schoolwide implementation of our established schoolwide targets for student performance.
Critical Root Causes	We have communicated our learning targets and expectations for curriculum implementation of HMA, enVisions, Core 95, and Exact Path. A monitoring system is in the process of being developed for tracking and monitoring the implementation of our curriculum tools of HMA, enVisions and Exact Path. In addition, the expectations for PLC meetings have just recently been communicated and developed.

Part B

School Goal: Our students will demonstrate an increase in proficiency from 47% to 52% in math during the 2023-2024 school year as measured by SBAC. Our students will demonstrate an increase in proficiency from 55% to 60% in reading during the 2023-2024 school year as measured by SBAC. Our students will demonstrate an increase in proficiency from 28% to 33% in science during the 2023-2034 school year as measured by SBAC

Improvement Strategy: The administrator will communicate clear targets or expectations for teacher performance and student performance and create a system for consistent monitoring and follow-up on growth and development. The administrator will provide teachers and students with high quality, CCSD approved curriculum in reading and math to help accomplish the school goal. The administrator will also share the ongoing status of the established targets with teachers, students, and parents during every Staff, LIT, and SOT meeting throughout the year. Our school will implement the newly adopted programs of HMA for reading support, as well as Exact Path and Edulastic to support the attainment of this goal.

Evidence Level (1-Strong; 2-Moderate; 3-Promising; 4-Demonstrates a Rationale): enVisions (3), MAP Accelerator (3), Lexia (3), easy CBM (3)

Intended Outcomes:

If 75% of students demonstrate mastery over our identified learning targets, there will be a minimum of a 5% increase on our state assessments.

Targets Include:

Exact Path - Every student will receive 45 minutes of participation on Exact Path every week with the goal of earning a "trophy" in reading and math every week

HMA - Full implementation of ELA for reading instruction for Tier I support

Core 95 Phonics - Implementation during Tier I instruction and Tier II support with identified students

Edulastic - Utilization of assessment bank for common assessments analyzed during PLC meetings

Accelerated Reading - Students are expected to earn a specified number of points in each grade level by the end of the year:

K-5; 1st-50; 2nd-50; 3rd-60; 4th-80; 5th-80

Action Steps:

Administration will work with classroom teachers to analyze MAP assessment data and identify individual student goals for growth on the MAP assessment. All students will be aware of their current standing on the MAP assessment from the first administration, and they will be aware of their MAP goal for the second and third administration on this assessment.

Administration will also work with teachers to ensure that the implementation of the district's new PLC model, along with the tools of HMA, Exact Path, Core 95 Phonics, and Edulastic are being used with students to support classroom instruction. Teachers will be responsible for implementing the components of an effective lesson from all of our new curriculum programs and tools.

Resources Needed:

We will need MAP reports and a visual goal setting display to monitor student performance related to goal achievement on the MAP assessment.

We will also need effective professional development on the use of the newly adopted instructional tools of HMA, Exact Path, Core 95 Phonics and Edulastic. We will need a year-long professional development calendar to monitor the training and implementation for all of these new tools.

Challenges to Tackle:

Investing the time to ensure that all teachers and students understand the purpose and relevance of making progress on the MAP assessment after each administration.

Our challenge will be providing the time to implement all of the new tools effectively.

Equity Supports. What, specifically, will we do to support the following student groups around this goal?

English Learners: Imagine Learning, tutoring, cooperative learning, anchor charts, academic stems, ALCA strategies, bilingual communication for parents, STEM education, provide professional learning opportunities for teachers and other licensed personnel regarding effective instructional practices and strategies for English language learners, provide incentives for hiring and retaining teachers and other licensed professionals, tutoring opportunities. These students will have access to the tools of HMA, Core 95 Phonics, Exact Path, and Edulastic.

Foster/Homeless: Counseling, tutoring

Free and Reduced Lunch: backpacks and supplies, tutoring, breakfast after the bell, STEM education, employ educational personnel who provide services for at-risk students, purchase of technology. These students will have access to the tools of HMA, Core 95 Phonics, Exact Path, and Edulastic.

Migrant: N/A

Racial/Ethnic Minorities: Exposure to text with multicultural representation, validation of cultural assets during lessons & class discourse. These students will have access to the tools of HMA, Core 95 Phonics, Exact Path, and Edulastic.

Students with IEPs: Collaborative meetings between Gen Ed and Special Education Teachers; Students are exposed to General Education Curriculum, flexible grouping strategies. These students will have access to the tools of HMA, Core 95 Phonics, Exact Path, and Edulastic.

Inquiry Area 2 - Adult Learning Culture Part A

Adult Learning Culture					
	Instructional Practice	Instructional Leadership	Systems and Structures that Support Continuous Improvement		
	Observation	Survey data	Master Schedule		
	Areas of Strength: We are using district approved curriculum for reading, math and science. Our teachers have received training on the use of EnVisions 2020, Amplify Science and Reach for Reading.				
Data Reviewed	For the 2023 - 2024 school year, teachers will switch from Reach for Reading to HMA for ELA instruction. Our teachers will also use Edulastic, Core 95 Phonics, and Exact Path to improve student learning. Our teachers will continue to use Amplify for science instruction and enVisions 2020 for math instruction.				
	Areas for Growth: Amplify Science is a new curriculum this year, and our teachers are developing their expertise using this new curriculum.				
	Teachers received PD on the use of Amplify science during the 22 - 23 school year. Classroom observations revealed that teachers did utilize Amplify Science during science instruction.				
Problem Statement	With the changes in our district and schoolwide curriculum choices, our teachers will be learning the lesson development and structure of the new curriculum for reading, along with the additional tools of HMA, Exact Path, Edulastic, and Core 95 Phonics.				
Critical Root Causes	Over the last 3 years, our curriculum has changed several times. This lack of consistency has created inconsistent instructional delivery and inconsistent learning targets for our students. I anticipate that the implementation of these district approved curriculum tools will result in higher student performance on state assessments.				

Part B

Adult Learning Culture

School Goal: By May of 2024, 100% of our teachers will be trained on the implementation of our schoolwide curriculum programs for students.

STIP Connection: All students have access to effective educators.

Improvement Strategy: Provide effective and on-going professional development on the utilization of our curriculum programs of HMA, Edulastic, Exact Path, and Core 95 Phonics.

Evidence Level (1-Strong; 2-Moderate; 3-Promising; 4-Demonstrates a Rationale): Data Analysis (2)

Intended Outcomes: All teachers will provide students with high quality instruction using consistent district approved curriculum

Action Steps:

Provide teachers with on-going professional development on all of our new curriculum and instructional tools. Monitor the use of our curriculum programs through classroom observations and walkthroughs. Teachers will be responsible for implementing the components of an effective lesson from all of our new curriculum programs and tools.

Resources Needed:

Professional development on all of our new curriculum and curriculum tools

Challenges to Tackle:

Support for teachers as they learn how to use the new curriculum by providing a clear professional development calendar.

Equity Supports. What, specifically, will we do to support the following student groups around this goal?

English Learners:

Imagine Learning, tutoring, cooperative learning, anchor charts, academic stems, ALCA strategies, bilingual communication for parents, STEM education, provide professional learning opportunities for teachers and other licensed personnel regarding effective instructional practices and strategies for English language learners, provide incentives for hiring and retaining teachers and other licensed professionals, tutoring opportunities.

Foster/Homeless: Counseling, tutoring

Free and Reduced Lunch: backpacks and supplies, tutoring, breakfast after the bell, STEM education, employ educational personnel who provide services for at-risk students, purchase of technology

Migrant: N/A

Racial/Ethnic Minorities: Exposure to text with multicultural representation, validation of cultural assets during lessons & class discourse

Students with IEPs: Collaborative meetings between Gen Ed and Special Education Teachers; Students are exposed to General Education Curriculum, flexible grouping strategies

Inquiry Area 3 - ConnectednessPart A

Connectedness					
	Student	Staff	Family & Community Engagement		
	Survey data, Office Referral, Panorama	District wide survey	Survey data (district and school)		
5.1.	Areas of Strength: Our 2023 student survey data reveals high levels of satisfaction from students regarding their perspective of our school performance, with many questions trending above 90%.				
Data Reviewed	Areas for Growth: Our 2023 district survey revealed that 75% of our students agree that our school does a good job to prevent bullying. Student data from this same survey reveals that 33% of our students reported staying home because they feel overwhelmed and anxious. This data reveals a 2.7% decrease in the number of students who feel that our school does a good job to prevent bullying from the 2022 survey.				
Problem Statement	Student survey results, along with office referrals for inappropriate student behavior, reveals a need for schoolwide tier I social emotional training.				
Critical Root Causes	Some of our students struggle with social skills that may have been created from being out of school during covid. These problems with social skills may lead to problems with interpersonal peer relationships, and inappropriate school behavior.				

Part B

Connectedness

School Goal:

By May of 2024, 100% of students will be provided with instruction, and access, to resources to support their social emotional development and needs. This goal will be continued for the 23-24 school year.

STIP Connection:

All students experience continued academic growth.

Improvement Strategy: Our school will implement school wide social/emotional structures and curriculum.

Evidence Level (1-Strong; 2-Moderate; 3-Promising; 4-Demonstrates a Rationale): data analysis of the writing program (2), creating a positive culture and climate (3)

Intended Outcomes: Student survey results will show an increase in the number of students that agree or strongly agree that our school does a good job to present bullying.

Action Steps:

PD will be provided on the programs of Kelso's Choices, Panorama and Hazel Heath. Teachers will incorporate Kelso's Choices into classroom management and environment. Monitoring of classroom implementation of these programs, and monitoring of survey results from Panorama and referrals to Hazel Heath. We used funds from our Strategic Budget to provide our school with an additional counselor to help support this goal.

Resources Needed:

Student survey on student feelings about their social emotional health.

Challenges to Tackle:

Our challenges will be providing continued training to teachers, and providing time in the schedule for providing these needed support programs to students. Hoggard will be participating in the Stay in Schools mentoring program to provide targeted students with needed support.

Equity Supports. What, specifically, will we do to support the following student groups around this goal?

English Learners:

Imagine Learning, tutoring, cooperative learning, anchor charts, academic stems, ALCA strategies, bilingual communication for parents, STEM education, provide professional learning opportunities for teachers and other licensed personnel regarding effective instructional practices and strategies for English language learners, provide incentives for hiring and retaining teachers and other licensed professionals, tutoring

opportunities.

Foster/Homeless: Counseling, tutoring

Free and Reduced Lunch: backpacks and supplies, tutoring, breakfast after the bell, STEM education, employ educational personnel who

provide services for at-risk students, purchase of technology

Migrant: N/A

Racial/Ethnic Minorities: Exposure to text with multicultural representation, validation of cultural assets during lessons & class discourse Students with IEPs: Collaborative meetings between Gen Ed and Special Education Teachers; Students are exposed to General Education Curriculum, flexible grouping strategies

COORDINATION OF FUNDS TO SUPPORT THE PLAN WITH OTHER PROGRAMS

Funding Source	Amount Received for Current School Year	Purpose(s) for which funds are used	Applicable Goal(s)
Strategic Budget	\$6,206,166	Licensed Personnel, Support Staff Personnel, Administrators, Instructional Supplies	Goals 1, 2, and 3
Title III budget	\$7,194.00	Professional learning books	Goals 1
Smart Start Funds	\$10,000	Instructional Supplies	Goals 1, 2 and 3
At-Risk	\$371,368	Instructional supplies, Extra Duty Collaboration Hours	Goals 1, 2, and 3
EL Budget	\$788,368	Tutoring beyond the school day, Incentives for licensed and support staff, Instructional supplies, professional development	Goals 1, 2, and 3
ESSER III	\$61,780	Instructional Aides, extra-duty support staff hours.	Goals 1, 2, and 3
